For total access to the Mercedes Benz Sprinter, your customers need our

## Retractable Rear Bumper Step

Step on to lower. Step drops down to twelve and one half inches off the ground on most Sprinters, providing improved access and safety. A nudge from your foot and the step retracts under the bumper where it stays clean and protected. Finally - problem solved for anyone who needs to get in and out of the back of their Sprinter.

Our all new Retracting Rear Bumper Step is designed specifically for the Mercedes Benz Sprinter and features:

- Lowest step in height. From factory floor height of 28" to 12 1/2" off the ground most Sprinters!
- 450 lb load rate
- Easy no-drill installation
- 3 year warranty coverage
- 6 1/2" deep step tread
- Textured non-skid safety surface
- Vibration-proof design with locking detent and rubber isolators for noise-free travel
- Highly durable manual operation for reliable, maintenance-free, heavy duty service

USA assembly for superior quality

Retains Mercedes Benz vehicle warranty coverage. High visibility color available by special order.

Available 60" and 36" wide.

\*Model dependent – call for details.

*A lower step is safer and easier on the back and knees!*

\*Not compatible with Tow Hitch

At Specialized Applications we continue to develop useful, high quality accessories and enhancements for the Sprinter.

**Executive Ride and Sprint-Air load leveling rear suspension Coming Soon!**
